Kadee® Tools

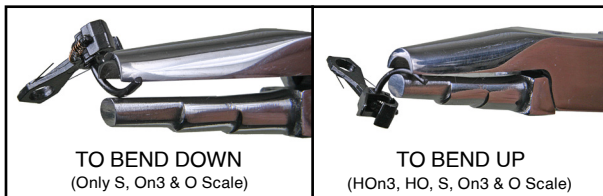

#237 Coupler Trip Pin Pliers

For HO_N3, HO, S, On3 & O Scale Couplers. Adjust trip pin to the correct height by gently squeezing with these specially designed pliers. The pliers have jaw surfaces that are curved and smooth. Adjusting the height of your Coupler Trip Pins is easier because the pliers surfaces conform to the bend of the trip pins and prevent them from kinking when bending or straightening.

Adjusting the trip is "only a last resort" after all efforts are made to proper coupler mounting.

#237

TO BEND DOWN
